QUICK BASE GANTT TOOL

Visually Manage Projects & Tasks

Sample User-Interface of a Gantt solution developed for a client shows various projects, start dates, duration, and utilizes a "stop light" system to display statuses at a glance

ROBUST CAPABILITIES

- Select from multiple projects
- View hierarchy and status of task
- "Bubbles" can be dragged and dropped, contracted and expanded
- Scroll to last task and search for a task
- Highlight critical chain or tasks longer than 7 days
- View and zoom by day, week, month, year, etc
- Entire UI is custom branded for each client
- Saved changes are automatically updated in the database when completing or updating tasks
- Cascade changes
- Predecessor and successor linking can be done with the click and drag of a mouse
- Filter tasks by progress, project type or workgroup
- Custom color coding on the bars based on status or other Quick Base data

OVERVIEW

Manage projects more efficiently with our Gantt Tool and get automatic updates in Quick Base.

The inherent efficiencies of Gantt charts are multiplied with our Gantt Tool. Changes to Gantt charts are synchronized across Quick Base applications. The Gantt Tool can be used for multiple projects, and each can be highly customized based on project needs.

Custom branding can be implemented with your company's color scheme, logo, and more. Custom color coding on bars can also be based on various statuses and/or other Quick Base data.

The Gantt Tool is robust and full-featured. It is designed to improve project management by making tasks, status, and resources more visual.
