

BATCH UPLOADER

Simplify your migration to & from Quick Base with the MCFTech Batch Loader

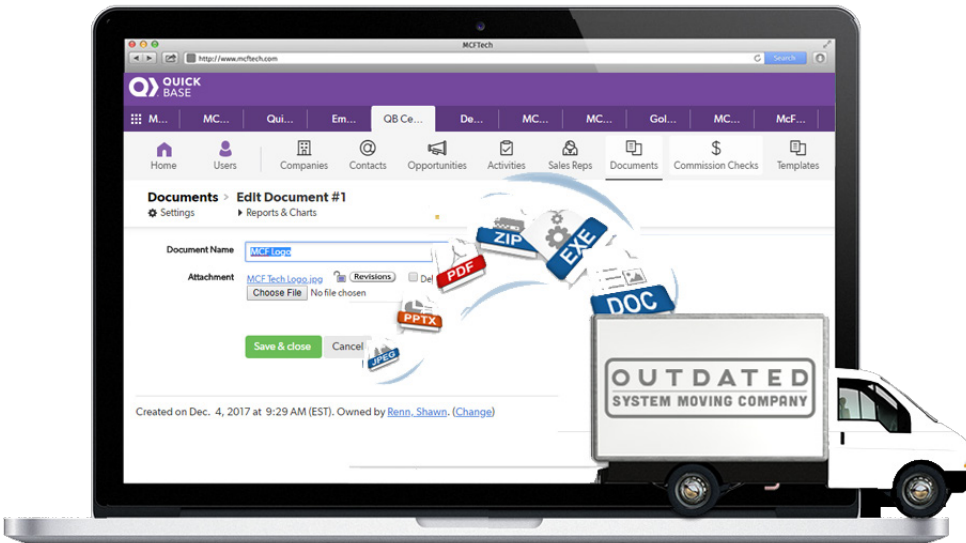

OVERVIEW

If you're switching to Quick Base from an antiquated system or application, the MCFTech Batch Loader can make your transition easier. Take files stored in your old systems or applications and upload them to Quick Base in batches to reduce your transition time. Advanced logic can be applied to make sure your files end up in the right place inside Quick Base.

ABOUT MCFTECH

MCF Technology Solutions delivers Services, Strategy, and Products to business customers worldwide. We focus on the successful development, deployment, and support of Business Applications for diverse teams. We believe the best solutions come from a sound business understanding and thoughtful application of technology.

Our global footprint includes deployments in more than 20 countries as well as systems that touch nearly every corner of the business world. Our special sauce is "The MCF Way," an iterative, customer-centered methodology based on extensive experience with leading software development, business process, and project management practices.

Quick Base natively supports individual file uploads, which can make transitioning time consuming. Speed up your transition with the MCFTech Batch Loader.

ROBUST CAPABILITIES

- Save time by uploading or downloading batches of files, not individual files one at a time
- Apply advanced logic to tie files to individual records in Quick Base based on the file name and/or location
- Eliminate the confusion of file management by tying file names to records in Quick Base
- Tool may be used on an on-going basis for batch file upload or download
- Can be used with Windows Task Scheduling to run batches on a schedule of your choosing your Quick Base Data
- Reduce time required to transition to Quick Base from legacy systems
