

SHIP MANAGER

For use with FedEx and UPS
Speed up your entire shipping process

MCF Ship Manager is integrated with a Quick Base application. This will allow users to process a shipment and with details including recipient address, shipping service, package weight, value, and more, all written back to your Quick Base record.

ROBUST CAPABILITIES

- ✓ Integrates with Quick Base to create shipping documents faster and efficiently
- ✓ Generate and Print multiple Labels with a single click of a button
- ✓ Can auto generate return labels to include in packages along with the shipping label in a single step
- ✓ Will post tracking numbers and links back to the Quick Base shipping record
- ✓ Email notifications can be set for delivery information, exception notes, or other status updates
- ✓ Ability to track shipments throughout the entire process and verify delivery without any user interaction

OVERVIEW

The Ship Manager allows users to streamline their shipping process. Whether you use FedEx or UPS, the MCFTech Ship Manager allows you to automatically post tracking numbers and links back to Quick Base and set up email notifications for deliveries, exceptions, or other status updates. With Ship Manager reduce redundancy and errors while speeding up your shipping process. Leveraging Quick Base, the MCFTech Ship Manager integrates FedEx and UPS with Quick Base to deliver faster and efficient shipments and returns.

ABOUT MCFTECH:

MCF Technology Solutions (MCFTech) delivers Services, Strategy, and Products to business customers worldwide. We focus on the successful development, deployment, and support of Business Applications for diverse teams. We believe the best solutions come from a sound business understanding and thoughtful application of technology. Our global footprint includes deployments in more than 20 countries as well as systems that touch nearly every corner of the business world. Our special sauce is "The MCF Way," an iterative, customer-centered methodology based on extensive experience with leading software development, business process, and project management practices.
