

MCF TRANSLATOR

Convert Quick Base to several different languages

OVERVIEW

Support your global workforce by converting Quick Base to several different languages. The Language Conversion tool allows you to support as many localizations as you need for your Quick Base application environment. Easily change field names, table names, report labels, forms, report builder page, reports, charts, embedded tables, all banner and navigation tools to a number of languages including Chinese, Spanish, Japanese, Hindi, and more.

ABOUT MCFTECH

MCF Technology Solutions (MCFTech) delivers Services, Strategy, and Products to business customers worldwide. We focus on the successful development, deployment, and support of Business Applications for diverse teams. We believe the best solutions come from a sound business understanding and thoughtful application of technology. Our global footprint includes deployments in more than 20 countries as well as systems that touch nearly every corner of the business world.

We utilize a proven methodology, dubbed "The MCF Way," which has led to hundreds of successful engagements. It is an iterative, customer-centered methodology based on extensive experience with leading software development, business process, and project management practices such as Lean, Six-Sigma, Agile, and PRINCE2®. This methodology allows our expert teams to deliver technical solutions to the world's top companies.

The Language Conversion Tool can easily improve the overall experience of your global workforce by converting field names, table names, report labels, and more to various languages.
